Welcome to

INDEX 2012

Welcome to the spring 2012 edition of the Index. In the following pages you will find the most popular new parts for T20, MF35 and 135 tractors. Of course these aren't the only parts we do, so please ring if you can't find what you want.

In the past we have only supplied the best quality tractor parts we can find, we still do! We also supply sound advice based on decades of knowledge and experience with these old tractors. Delivering a swift mail order service has been our priority too. We have managed to secure lower prices from some of our suppliers by purchasing in bulk. This reduction we have passed on. You will notice quite a few parts have reduced in price. Still the same quality but cheaper. Every Little helps in these testing economic times! We must remember when comparing prices that although prices quoted may be cheaper elsewhere, it may not be the same build quality.

This year we continue to look for new editions to parts, and have now added another five new parts to our range.

Lower prices

We know that people are having to tighten their belts, and we've lowered prices on a wide selection of our range as much as we can to help.

2012 Shows

To save you time they can be ordered beforehand and collected at the shows.

Opening times

Our usual opening times are Monday to Friday 8.30am until 5.30pm, and Saturday 8.30am until 4pm. We are closed on Sunday. If you want to call please ring before hand to avoid disappointment.

Coming Soon

We are in the process of creating an online shop, which will allow for quick and easy ordering. You will still be able to order by phone or fax and advice is readily available. The website will also feature a sales page so check regularly to find our special offers!

We'd like to thank all our customers for their patronage.
